Boulton, Matthew 1728-1809 [WorldCat Identities]
MATTHEW BOULTON FOUNDER OF THE BIRMINGHAM ASSAY
OFFICE Matthew Boulton is perhaps best known for his partnership with James Watt and his association with the Lunar Society, but Boulton’s creative talent led him into many other enterprises during his lifetime.

**Featured items from the silver collection - Assay Office**
Matthew Boulton (1728-1809) In 18th century England, a successful silversmith was not only a craftsman. He or she was the head of an enterprise, and in Matthew Boulton’s case, an enormous one. Boulton’s famous manufactory in Birmingham produced massive quantities of goods, from silver plate to coins to ormolu.

**Matthew Boulton's Industry | Shrubsole | News & Events**
The Watt steam engine, alternatively known as the Boulton and Watt steam engine, was an early steam engine and was one of the driving forces of the Industrial Revolution. James Watt
developed the design sporadically from 1763 to 1775 with support from Matthew Boulton. Watt's design saved so much more fuel compared with earlier designs that they were licensed based on the amount of fuel they ...

**Watt steam engine - Wikipedia**
Founded in the English West Midlands around Birmingham in 1775 as a partnership between the English manufacturer Matthew Boulton and the Scottish engineer James Watt, the firm had a major role in the Industrial Revolution and grew to be a major producer of steam engines in the 19th century.

**Boulton and Watt - Wikipedia**
Matthew Boulton, the leading designer of the age, was quick to recognise the change in taste and travelled himself to France in 1765, visiting both Paris and Versaille. By the end of the decade he was importing French metal work as well as manufacturing objects in the French style at his Soho works.
