object relations theory. Klein suggested that pre-verbal existential anxiety in infancy catalyzed the formation of the unconscious, resulting in the unconscious splitting of the world into good and bad idealizations. In her theory, how the child resolves that split depends on the constitution of the child and the character of nurturing the child ex

Melanie Klein (1932) is one of the key figures in psychoanalysis. Her unabashed disagreements with Freudian theory and revolutionary way of thinking was especially important in the development of child analysis. Her theories on the schizoid defences of splitting and projective identification remain influential in psychoanalytical
